Bill Reed International Traveling Fellowships

Three fellowships will be awarded this year as follows:

1. The winner of the Poster Session at the annual meeting of the European Society for Dermatological Research will be awarded \$800 to help support a trip to attend the annual meeting of the American Academy of Dermatology.
2. The winner of the Stelwagon Prize for the best paper presented at the Resident's Forum at the annual American Academy of Dermatology meeting will receive an \$800 award to support a trip to Europe where the awardee will present a paper at the annual meeting of the British Association of Dermatologists in England. Further travel to European centers can also be arranged.
3. A third award of \$800 will be given to an Academically oriented dermatologist in the *Private Practice of Clinical Dermatology*, who has been out of training no more than 5 years. It is meant to support travel for educational purposes and to broaden contacts with dermatologic investigators. Anyone interested in applying for this award should send their curriculum vitae and a covering letter indicating how they plan to spend the award funds, to the Chairman of the Committee on International Affairs of the A.A.D. at the Academy office, 820 Davis Street, Evanston, Illinois 60201. The deadline for submission is September 1, 1980. Supporting letters from abroad relevant to the planned travel are desirable. The award will be announced in December and will be based on the originality and productivity of the applicant as well as the meritoriousness of the travel plans for continued clinical investigation.
